

hw03: LaTeX Math

Kenji Sato
Kobe University
Email: mail@kenjisato.jp

2017/12/10

Purpose

To learn to write mathematical equations in LaTeX syntax.

Instructions

In this assignment, you will reverse engineer [target.pdf](#). Follow the below steps.

- clone the assignment repository and make a working branch (e.g., `solution` branch);
- read [target.pdf](#);
- complete `solution.Rmd` to reproduce [target.pdf](#) in R Markdown format;
- knit `solution.Rmd`;
- commit `solution.Rmd` and `solution.pdf`; and
- open a Pull Request.
